EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen B. Maebius on June 17, 2009.

The application has been amended as follows:

In claim 1, line 10, deleted "such as cold water,"

In claim 2, line 11, deleted "in particular cold water,"

In claim 2, line 21, deleted "for example based on ceramics,".

The following is an examiner's statement of reasons for allowance: **The primary reason for allowance is that prior art does not teach a condensation heat exchanger having two coaxial tube bundles operating as a primary heat exchanger and a secondary heat exchanger including a two plate deflection system which closes one side of the tube bundles from the other set of tube bundles and introducing a secondary hot gas flow between the deflection plates and through the secondary heat exchanger before being combined with a primary gas flow which flows through the primary heat exchanger.**

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
